

Six Stay Puft Photos for Stay Puft Marshmallow Stand

You can print this on your printer but I recommend having a business like FedEx print this file, [8 x 11 Stay Puft Base photos.pdf](#), on glossy card stock. The minimal cost to do this is well worth your trouble. You will need to bring in the file on a thumb drive. You can cut these out with a good pair of scissors. Cut just inside of the outer blue border in the white portion and an uneven cut does not show up on the white base of the foam board. Good luck! — JB Nisley
